

## The Highlights from September

- Two people from the HOPE groups accepted Jesus as their Lord and Savior this month!
- The HOPE group in Tibas has asked Edgar to come twice a week to share with them! We are praying about the option of moving into a facility. Praise the Lord!
- **NINE** of the people we have met through the HOPE groups are attending church events and our Sunday services!
- Edgar's reading and translating paragraphs in English!
- Our church celebrated it's 3 year anniversary-three years of God's faithfulness and provision.

- Yes, I'm still singing! It's been a challenge to learn to new songs, with Spanish lyrics, and different harmony parts, but the Lord has been so faithful. I led the worship service for the first time this month.
- As of now, we have five mission teams coming next year. (Three groups will come from Edge Outreach.) May God continue bringing workers with willing hearts!
- My skin rashes and allergic reactions have improved GREATLY! Thanks so very much for your prayers.

## Getting Started in Los Guido

I had never been to Los Guido, but I knew it had a reputation. Everyone who visited came back saying what a rough place it was. Two weeks ago, I went to see.

For over a year, a team from our church has led a small group, a women's group, and a children's ministry in Los Guido with the hope of starting a new church in the future.

As we talked with individuals about the community's

needs, I heard the same response. **"There's everything here"**-drug addiction, alcoholism, prostitution (including little girls), violence, crime, and a high rate of unemployment.

Starting in October, I'll be an ICTHUS "guide" for kids from 9 to 11 years old in the kids' club. This is so different than *anything* I've ever experienced in the past 14 years that I've worked with children. Please pray

for the Lord to be my help as I teach these kids about God's truths in order that they can confront the difficult situations in their lives with God's word and His strength.
